Professionally Managed Events

Step into the ultimate virtual event experience with our **Professionally Managed Events** option. Our seasoned experts meticulously craft every aspect of your event journey—from enhancing brand aesthetics and rigorous presenter rehearsals to ensure your VIP speakers are primed and ready. On the big day, while our team seamlessly runs the entire show, you can focus on what truly matters: the message and the audience.

Run Your Own Events

If you're confident in your audio/video and technical prowess and believe you can whip up top-notch content while managing your event like a pro in real time, the self-service model will suit you well. Webcast Subscriptions are GlobalMeet's DIY (do-it-yourself) solution. With our self-service model, our team equips your event experts with all the tools, engagement features and training needed for a successful event.

Speak the Language of Your Attendees

Break down language barriers improving accessibility and inclusivity using live interpretations, captions and transcripts

Unmatched Scalability and Stability

Confidently host engaging virtual events to 100,000+

VIP Service

Leverage our unrivaled expertise to fully manage or assist with your event ensuring it runs flawlessly

Blurred and Virtual Backgrounds

For a unique and branded experience you can upload a personalized background or blur your real background maintaining privacy and professionalism.

Steer the Audience

Control the audience experience with dynamic layout capabilities, a way for presenters to direct the audience to focus on specific presentation content.

Stay on Brand

Make your event look like you and not us, fully customizing registration pages, confirmation, reminder, follow-up emails, conference pages, and live or on-demand events.

Audience Engagement

Engage your audience with interactive features including polling, Q&A, chat and social media feeds.

Seamless Integrations

Gain more value by utilizing our integrations with key cloud-based software providers.

Guests Can Take Centerstage

Special guests can cameo during a live event to ask a question or contribute to an ongoing discussion through our managed Centerstage feature.

Enterprise-Grade Security

Maintain network security with password protection, login authentication and limited audience access.

Supports Compliance

Built for stringent compliance regulations assisting organizations in their lengthy and arduous regulation journey to become GDPR compliant.

Versatile Delivery

Broadcast live events or edit and re-purpose recorded material for a simulated live event and post for on-demand viewing.

Live Event Support

Industry-leading, 24/7 in-product support with access via phone, email, or chat.

Powerful Reporting

Measure success post-event through real-time data reporting and analytics.
